

Dear FCC,

I respectfully urge you to reject the NAB's petition 04-160 and support XM's ability to provide the programming that is entertaining and informative. My wife and I listen to XM satellite radio all the time and, while we haven't used the XM Instant Traffic & Weather, I am strongly opposed to any limitations put on XM by the FCC that would limit what will be for us a very useful service as we travel.

Robert Cordill
